

# GRADUATE PROGRAM

Ready for a challenging and rewarding way to kick-start your career in the energy industry?

Stanwell's Graduate Program provides valuable opportunities to build your professional ability and obtain an in-depth understanding of the business. You develop through on-the-job experience, coaching and mentoring from others and formal training courses.

Our Graduates are innovative, adaptable and future-focused. We value diversity in thinking and believe this is key to delivering better outcomes for Stanwell.

Visit the [Current Vacancies](#) page to register your interest. We value diversity and encourage people from all backgrounds to apply.

## What can you expect?

Be rewarded with above award salary rates and fantastic employee benefits

Contribute from day one and participate in business critical and improvement projects that contribute to our vision and strategy
